

# Visit to an Orphanage

The students of **class V**, accompanied by their teacher in charges began their journey of community service by visiting the **Hope Foundation** an orphanage located in Paschim Vihar, New Delhi.

The home was established to care for orphan children. Our students spent time with these children and open heartedly distributed things taken for them.

They cherished the time spent there and learnt a lesson that life is not a bed of roses, and we all should express our gratitude to God for everything we have.
