

Visit to Pratapgarh Farms

A one day trip to the Pratapgarh farms was organized for the students of classes III-XII, which was a fun-filled moment for everyone. What made the visit even more interesting and exciting was the ethnic atmosphere, the village rude food, the makki ki roti, bajre ki khichri and, the lassi, and the greenery all around! Needles to say everyone had great fun that day. The activities were fun, the students enjoyed playing at the potter's wheel, they enjoyed turning the hand-mill, and of course they enjoyed getting mehndi (Henna) applied on their hands! The students tasted slice of rural life to those coming from the more urbanised city backgrounds. Children were amazed to see how interesting and vibrant life on a rural farm can be! The trip also helped children and even grownups learn more about rural culture, folk art, rural food, which is healthy. The children also enjoyed playing long forgotten games like hop-sotch, marble, tug of war and even sack-race. The camel ride & mud bath were great fun.
