

ASSET Training Workshop

ASSET tests conducted by Educational Initiatives Pvt. Ltd. are an online diagnostic test which helps students strengthen their skills and improve upon their shortcomings. Unlike regular tests which determine only how much a child knows (or has memorized), this test measures how well a student has understood concepts and provides detailed feedback on the same.

Students at JMIS took the analytical test in December 2015, the results of which were tabulated and explained in a class and subject-wise booklet handed to the respective subject teachers.

Ms. Jayanti from Educational Initiatives took a workshop with all subject teachers from classes III to X to explain the usage of feedback booklets on 31st May 2016. This aided teachers to determine areas of strength and weakness of each student and the class as a whole, so as to prepare them better for the next ASSET examination.
