

A VISIT TO AKSHARDHAM TEMPLE

India is a land of diverse culture and we correlate our life's perspective through these cultures. To make aware of these varied cultures and imbibe values among students, J.M. International School, Dwarka Sec-6 has given an opportunity to visit to Akshardham temple. It was an exciting and an enriching experience to see the grandeur architectural sight which gives insight of our diverse culture to our students. Students were awestruck to see the beautiful engravings done in different types of stones especially marble, metals and the statues made up of 'Panch Dhatu'.

A spacious and beautiful garden extended to a large area captivated all the children for its beauty and big size statues of freedom fighters, women warriors, and scenery. The students had an enjoyable boat ride which sailed us to 'Sanskriti Vihar' depicting our Vedic culture and work of eminent personalities of 2500 BC.

Students had an amazing experience to know about 'Swami Narayan' and his spiritualism which helped our students to imbibe strong moral values and the path of spiritualism.
