

## Visit to Traffic Training Park

As a part of an integrated learning project Grade 2 students took an excursion to Traffic Training Park (Connaught place).

It was a short trip. Students were extremely excited to reach the destination. Undertaking this excursion had some objectives like; making the students aware about the safety rules they should follow while traveling in a moving vehicle, crossing road.

Traffic Park not only provided fun to the children but also educated them about various aspects related to road safety in a play way method. The park is equipped with road signs, small roads and road crossings. Significance of road signals was also explained through various activities like demonstration, games and flash cards.

The visit to the park was memorable and students came back to school acquainted with knowledge of traffic rules.
