

Visit to Nehru Planetarium

JM International School, organized an Edu-trip to Nehru Planetarium for the students of Grade IV on 30/04/19.

On reaching the destination, the students and the teachers were taken on a journey of celestial discoveries in the dome shaped Sky theatre. A show was organised in the Sky theatre through which information on constellations like Big Dipper, Ursa Major, Ursa Minor, Great Bear and planets was delivered to the students with the help of visuals like computer animations, cartoons and special effects which were liberally used.

As the lights dimmed and the journey through the stars began, the excitement among the students was overwhelming. The sky came alive on their massive dome theatre. The show was extremely amazing and provided a good visual experience as well as factual knowledge of astronomy.

They also visited the Museum where they learnt about the lifestyle of JawaharLal Nehru through several photographs giving an account of his life.

They came back with new learning. It served to be a fruitful learning experience for the teachers and the Students alike.
